1

Executive Summary

Overview, purpose, and scope of the B2B Dashboard

This Product Requirements Document (PRD) specifies the complete design, functionality, and technical implementation of the **Shree Kundodari Cement Products B2B Management Portal** — a production-ready, single-file web application (index.html) for managing cement manufacturing operations, B2B sales, payments, HR, and administration.

The portal serves as a unified digital command centre for the proprietor, production manager, sales team, and store manager at the Bhosari MIDC facility. It eliminates fragmented spreadsheets and manual tracking by consolidating 23 functional modules into one responsive, accessible, browser-based dashboard.

23

Functional Modules

9

Build Steps Required

6

Product SKUs

Delivery Format: Single self-contained index.html file — opens by double-click or drag-and-drop. Zero npm, zero build step, zero server required. Deployable to Vercel/Netlify in under 2 minutes.

2

Business Context & Goals

Company profile, product catalogue, and dashboard objectives

2.1 Company Profile

Field

Details

Legal Name	Shree Kundodari Cement Products
Business Type	B2B Manufacturing — Cement Blocks & Paver Products
Location	Bhosari MIDC, Pimpri-Chinchwad, Pune – 411026, Maharashtra, India
GSTIN	27AABCS1429B1ZB (Maharashtra State Code: 27)
Phone	+91 98765 43210
Email / WhatsApp	info@kundodari.com / +91 98765 43210
UPI ID	kundodari@upi
Founded	2008 (17+ years in operation)
Certifications	IS 2185 Part 1 & 2, IS 15658, BIS Approved
Working Hours	Mon–Fri: 7 AM – 6 PM Sat: 7 AM – 4 PM Sun: Closed
Monthly Revenue	₹9.8L+ MTD Annual est. ₹1.2Cr
Tagline	"Build your dreams with our passion"

2.2 Product Catalogue

Product	SKU	Price / Unit	IS Standard	S
Solid Block 6"×8"×16"	SB-6816	₹37	IS 2185 Part 1	A
Solid Block 4"×8"×16"	SB-4816	₹28	IS 2185 Part 1	A
Hollow Block 2-hole	HB-2H	₹40	IS 2185 Part 2	A
Hollow Block 3-hole	HB-3H	₹44	IS 2185 Part 2	L
Paver Block I-shape 60mm	PB-I60	₹28	IS 15658	A
Paver Block Hex 60mm	PB-HX60	₹30	IS 15658	L

GST: 18% on all products | MOQ: 100 units | Free delivery above ₹1L | Lead time: 2–3 working days

2.3 B2B Business Goals

G-01

Centralise operations — replace scattered spreadsheets with a single unified portal

Priority: Critical

G-02

Enable real-time stock visibility with reorder alerts to prevent production stoppages

Priority: Critical

G-03

Streamline B2B order-to-payment cycle: Quote → Order → Dispatch → Payment Received

Priority: Critical

G-04

Digitise labour attendance, timesheet, and payroll to reduce manual wage calculation errors

Priority: High

G-05

Support multi-language interface for staff from Karnataka, Goa, Tamil Nadu, and Gujarat

Priority: High

G-06

Provide online order acceptance via Portal, WhatsApp, Email, and Phone channels

Priority: Medium

2.4 Live Dashboard KPIs (Sample Data)

Metric	Current Value	Target / Threshold
Revenue MTD	₹9.8L	▲ +14% vs last month
Blocks Produced (Month)	24,600 units	Target: 23,000 (+7%)
Today's Output	1,240 units	Daily target: 1,150
Cement Stock	186 bags	⚠ Reorder at 300
Active B2B Customers	38 (+3 new)	Monthly growth: 2+
Pending Orders	4	SLA: Dispatch within 2 days
Labour On-Site	12 / 15	Minimum: 10 for full production

Outstanding AR	₹1.4L (3 overdue)	Max 30-day overdue threshold
Pipeline Value	₹18.4L (9 leads)	Win rate target: 80%+
Wages Due (June 2026)	₹72,000	PF: ₹8,640 Net: ₹63,360

3

Stakeholders & User Personas

Who uses the dashboard and what they need

Role	Primary Sections Used	Key Needs
Proprietor / Director	Overview, Reports, Ledger, Payments, About	Revenue KPIs, P&L, cash flow, AR aging
Production Manager	Production, Inventory, Raw Materials, Labour	Daily output tracking, cement stock alerts, shift logs
Sales Executive	Orders, Quote Builder, Customers, Pipeline, Online Orders	Quote generation, order tracking, B2B client management
Store Manager	Inventory, Raw Materials, Dispatch, Catalogue	Stock levels, dispatch coordination, reorder triggers
Accounts / Finance	Ledger, Payments, Wages, Reports	Transaction recording, wages processing, GST reports
B2B Customers	Online Orders, Catalogue, Contact	Browse products, place orders, track delivery status

3.1 B2B Customer Accounts

Company	City	LTV	Outstanding	Payment Terms
Rajesh Constructions	Pune	₹4.2L	₹0	Net 15
Patil Builders	Nashik	₹2.8L	₹7,200	Net 30
Suresh Infra	PCMC	₹2.1L	₹0	Advance
Ganesh Homes	Lonavala	₹1.3L	₹14,200	Net 30

Omkar Infrastructure	Pune	—	—	TBD
----------------------	------	---	---	-----

4

System Architecture

Technology stack, CDN dependencies, and file structure

4.1 Technology Stack

Layer	Technology	Version / Source	Purpose
Structure	HTML5	Standard	Semantic document layout
Styling	CSS3 (Custom Properties)	Standard	Design tokens, dark/light themes, responsiveness
Interactivity	Vanilla JavaScript ES6+	Standard	All logic — charts, forms, navigation, etc.
Charts	Chart.js	v4.4.1 (CDN pinned)	Revenue, production, pipeline, attendance
Icons	Tabler Icons	v2.44.0 (CDN pinned)	All UI icons (400+ icons used)
Typography	Google Fonts	Rajdhani + Inter	Headings (Rajdhani) + body text (Inter)
Deployment	Static HTML	Single index.html	Zero build step, zero server required

4.2 External CDN Dependencies

Pinned Versions — Do Not Upgrade Without Testing: All CDN links use exact version pinning to ensure reproducibility.

Resource	CDN URL
Google Fonts	fonts.googleapis.com/css2?family=Rajdhani:wght@400;500;600;700&family=Inter:wght@300;400
Tabler Icons	cdn.jsdelivr.net/npm/@tabler/icons-webfont@2.44.0/tabler-icons.min.css
Chart.js	cdn.jsdelivr.net/npm/chart.js@4.4.1/dist/chart.umd.min.js

4.3 File Output Specification

Property	Value
Filename	index.html

Target Line Count	900 – 1,400 lines
External Dependencies	3 CDN links only (Fonts, Icons, Chart.js)
Separate Files	None — fully self-contained
Build Tool Required	None
Browser Support	Chrome 90+, Firefox 88+, Safari 14+, Edge 90+
Favicon	 emoji SVG data URI embedded in head

4.4 Internal HTML Structure

Block	Contents
<head>	charset, viewport, title, favicon, Google Fonts, Tabler Icons, Chart.js, full <style> block
#lang-bar	9-language switcher — first element in <body>
.sidebar	SVG logo + brand name, 6 nav groups with dividers, theme toggle, footer
.topbar	Page title, search input, export button, New Quote button, admin avatar
.content	23 × <div id="sec-{name}" class="section">
#toast	Fixed-position toast notification
<script>	Ordered JS blocks: LANGUAGE → THEME → NAV → CHARTS → all module logic → INIT

5

Design System & Brand Identity

Colour tokens, typography, components, and logo specification

5.1 Colour Design Tokens

Token	Dark Theme	Light Theme	Usage
--bg	#0d0f14	#f4f5f8	Page background
--bg2	#13161f	#ffffff	Sidebar, cards

--bg3	#1a1e2a	#f0f1f5	Inputs, hover states
--accent	#c9ab82	#8b6840	Brand gold — primary
--green / --green-t	#4caf7d / #6de0a5	#2e7d52 / #2e7d52	Success, positive KPIs
--amber / --amber-t	#e8a317 / #f0c060	#b57800 / #b57800	Warnings, low stock
--red / --red-t	#e24b4a / #f08080	#c62828 / #c62828	Critical alerts, danger
--blue / --blue-t	#378add / #7ab8f5	#1a6bbf / #1a6bbf	Info, links, B2B status
--purple / --purple-t	#9b59b6 / #c39bd3	#6a1b9a / #6a1b9a	Pipeline, special KPIs

5.2 Typography Scale

Element	Font	Size
Brand name, page title	Rajdhani	13.5–18px
KPI values	Rajdhani	24px
Card / section titles	Rajdhani	15–20px
Nav items, body text	Inter	12–13px
KPI labels, badges, th	Inter	9.5–10px uppercase
Form labels, small notes	Inter	10–11px

5.3 Brand Logo Specification

The Shree Kundodari logo is always rendered as an inline SVG — never as an external image or generic icon. It encodes the brand visually through five elements:

Element	Visual	Meaning
Background	#100802 dark brown	Earth / concrete base
Gold halo ring	#ffd700 circle, 60% opacity	Auspiciousness / divinity
श्री text	Gold serif, 26pt, 95% opacity	Sanskrit invocation of pros

Stone arch path	#c9ab82 quadratic bezier, 5pt	Construction / cement arch
Red banner + KUNDODARI	#c41e1f rect, white bold text	Brand identity / nameplate

Sizes: 40×40px in sidebar brand section | 120×120px in About Us hero banner

5.4 Component Library

Component	CSS Classes	Specification
KPI Card	.kpi .g/.a/.r/.b/.p	3px left border strip (colour-coded), Rajdhani 24px value, 9.5px
Card container	.card	--bg2 background, 0.5px border, 12px radius, 15px padding, 13px
Badges	.bg .ba .br .bi .bc	Pill shape, 9.5px bold — green/amber/red/blue/accent variants
Progress bars	.prog .pf.g/.a/.r/.d	5px height, full-width track, colour-coded fill
Delivery track	.dt-step .done/.active/.paid	6-step horizontal tracker; .paid = green (Payment Received)
Toggle switch	.sw .sw.on	34×18px pill; accent background when on
Alert banner	.alert .s/.e	Success (green) / Error (red); .show class reveals it
Tab bar	.tab-bar .tab .tab.active	2px bottom border accent on active tab
Toast	#toast .toast.s/.e	Fixed bottom-right; auto-hides after 3s

6

Section Registry — 23 Modules

Complete list of dashboard sections, nav groups, and version introduced

6.1 Operations Group

overview

Overview

8 KPI cards, revenue line chart, sales donut, live alerts feed — v1.0

orders

Orders

Filterable order table, status/payment badges, new order entry — v1.0

quote

Quote Builder

Multi-product quote, per-line discount, GST 18% auto-calc, send/export — v2.0

inventory

Inventory

SKU table with reserved vs available, progress bars, stock entry form — v2.0

production

Production

Weekly bar chart, 5 KPIs, shift log form, machine uptime — v2.0

rawmat

Raw Materials

Material stock levels, days remaining, supplier info, purchase log — v2.0

6.2 B2B Commerce Group

catalogue

Product Catalogue

Product cards with stock bars, "Request Quote →" CTA, MOQ rules — v2.0

customers

Customers

Account list, credit management tab, B2B registration form — v2.0

pipeline

Sales Pipeline

4-stage kanban (Lead→Quote→Negotiation→PO), stage donut chart — v2.0

ledger

Ledger

Transaction rows (credit green/debit red), AR summary, filter — v2.0

dispatch

Dispatch

6-step tracker incl. "Payment Received" final step — v3.0 → v5.0

online-orders

Online Orders

Multi-channel (Portal/WhatsApp/Email/Phone), analytics, integrations — v5.0

6.3 Payments Group

payments

Payment Centre

7 payment methods (QR/UPI/NEFT/Card/Cheque/Cash/Other), Pay-to-Vendor ↔ Receive-from-Customer toggle, confirm modal, receipt, transaction history with filters, method-wise summary bars, outstanding AR tracker — v4.0

6.4 HR Group

labour

Labour & Attendance

15 workers, live clock, check-in/out toggle, add-worker form with bank details — v2.0

wages

Wages & Payroll

4 tabs: Register (PF+advance+net), Pay Wages, Payment History, Advance/Deduction — v3.0

timesheet

Timesheet

Month×worker P/A/½/— grid, wages per worker, yearly attendance bar chart — v2.0

6.5 Admin Group

notifications

Alerts

Alert list with coloured priority dots, mark-all-read — v1.0

calendar

Calendar 2026

Month navigator, 19 Indian holidays highlighted, full holiday table — v2.0

reports

Reports & Analytics

6 KPIs, revenue-vs-cost chart, attendance chart, 8 export buttons — v2.0

map

Location

Map placeholder, Google Maps deep-link, directions, truck entry gate info — v1.0

contact

Contact

4-item contact grid, personnel table with online/away live status — v1.0

settings

Settings

Company profile, pricing/tax config, alert preference toggles, theme toggle — v2.0

about

About Us

Hero banner with 120px logo, 8 stats, team cards, vision/mission/values — v5.0

7

Functional Requirements

Must/Should/Could requirements across all modules

7.1 Navigation & Global Shell

FR-001

Sidebar navigation with 23 sections in 5 groups (Operations, B2B Commerce, Payments, HR, Admin) separated by dividers

MUST

FR-002

Active section highlighted with accent left-border and accent-bg background in nav

MUST

FR-003

Top bar with page title, global search, export button, New Quote CTA, admin avatar pill

MUST

FR-004

Nav badges (red pill with count) on Orders (4) and Alerts (3); green "New" badge on Payment Centre

MUST

FR-005

Dark/Light theme toggle in sidebar footer AND Settings page; persists during session

MUST

FR-006

Language bar (9 languages) always visible above .app wrapper; updates nav, title, brand name

MUST

FR-007

Global search routes to relevant section based on keyword (order/stock/wage/customer/etc.)

SHOULD

FR-008

Mobile responsive: sidebar collapses at $\leq 768\text{px}$; grid switches to 1-column

SHOULD

7.2 Overview Dashboard

FR-010

8 KPI cards: Revenue MTD, Blocks Produced, Pending Orders, Cement Stock, Active Clients, Labour On-Site, Pipeline Value, Outstanding AR

MUST

FR-011

Revenue line chart (Jan–Jun, ₹L) and Sales donut chart (Solid 48%/Hollow 32%/Paver 20%)

MUST

FR-012

Live alerts feed with priority dots (red/amber/blue/green) and timestamped messages

MUST

7.3 Quote Builder

FR-020

Multi-product line items; per-line discount (0–30%); line total = price $\times$ qty $\times$ (1 – disc/100)

MUST

FR-021

Auto-calculate: Subtotal $\rightarrow$ Discount $\rightarrow$ GST 18% $\rightarrow$ Grand Total displayed in Rajdhani 26px accent

MUST

FR-022

"Request Quote $\rightarrow$ " on Catalogue cards pre-fills product in Quote Builder via openQuote()

MUST

FR-023

Save Draft and Export as PDF actions with showAlert() confirmation

SHOULD

7.4 Dispatch — 6-Step Tracker

The dispatch workflow follows this exact 6-step sequence with specific visual states:

1

Confirmed

→

2

Production

→

3

Loaded

→

4

In Transit

→

5

Delivered

→

₹

Pmt Received

FR-030

6-step delivery tracker per order; step 6 ("Payment Received") uses GREEN (.paid) visual state distinct from accent (.done)

MUST

FR-031

Order #1040 (Suresh Infra): all 6 steps done including Payment Received (₹22,400 NEFT)

MUST

FR-032

Order #1041 (Patil Builders): steps 1–3 done, step 4 active (In Transit); steps 5–6 pending

MUST

FR-033

Order #1042 (Rajesh): steps 1–5 done; step 6 (Payment Received) active/awaiting

MUST

7.5 Online Orders Module

FR-040

Channel breakdown cards: B2B Portal, WhatsApp Business, Email Orders, Phone/IVR

MUST

FR-041

Place B2B online order form: customer, channel, product, qty, delivery date, payment mode, address

MUST

FR-042

Recent online orders table (OO-042 through OO-047) with channel badges and status

MUST

FR-043

Portal Analytics: registered users, session duration, quote-to-order conversion (68%), repeat orders

SHOULD

FR-044

Integrations panel: WhatsApp API (Connected), Email (Connected), Google My Business (Pending)

SHOULD

8

Payment Centre Specification

All payment methods, transaction flow, and data model

8.1 Payment Methods

Key	Icon	Display Name	Description	Extra Fields Required
qr	ti-qrcode	QR / UPI	GPay · PhonePe · Paytm · BHIM	UPI ID, Transaction ID + S
upi	ti-brand-google	UPI Direct	Bank-to-bank UPI transfer	UPI ID, Transaction ID
neft	ti-building-bank	NEFT / RTGS	Bank wire transfer	Bank Name, UTR No., Acc
card	ti-credit-card	Card	Debit / Credit / RuPay / Amex	Card Type (select), Last 4
cheque	ti-writing	Cheque / DD	Bank cheque or demand draft	Bank Name, Cheque No., Branch
cash	ti-cash	Cash	Physical cash payment	Received/Given by, Denom

other	ti-dots-circle-horizontal	Other	Barter / Exchange / Other	Free text remarks
-------	---------------------------	-------	---------------------------	-------------------

Update

8.3 Transaction Data Model

Field	Type	Values	Notes
id	String	TXN-001, TXN-002...	Auto-incremented, zero-padded
dir	Enum	'in' 'out'	in = Customer receipt, out = Vendor
party	String	From VENDORS or CUSTOMERS_LIST	Required field

method	String	Display name (e.g. 'NEFT / RTGS')	From PAY_METHODS[key].name
amount	Number	Positive ₹ value	Validated > 0 before confirm
date	String	'Jun 17' format	From date input
ref	String	Invoice/order ref or auto-generated	AUTO-{timestamp} if blank
status	Enum	'Paid' 'Processing' 'Pending'	Cheque/DD → Processing; others →
type	Enum	'Vendor' 'Customer'	Derived from dir

8.4 KPI Calculations

KPI	Formula
Paid to Vendors (MTD)	Σ amount WHERE dir='out' AND status='Paid'
Received from Customers	Σ amount WHERE dir='in' AND status='Paid'
Outstanding AR	Σ amount WHERE dir='in' AND status='Pending'
Transactions Today	COUNT WHERE date = today's date string
Processing	COUNT WHERE status='Processing'

8.5 Seeded Transaction History (Initial Data)

ID	Dir	Party	Method	Amount
TXN-001	↑ Out	ACC Cement Depot	NEFT	₹42,500
TXN-002	↓ In	Rajesh Constructions	UPI	₹18,500
TXN-003	↑ Out	Shinde Aggregates	Cash	₹3,500
TXN-004	↓ In	Suresh Infra	NEFT	₹22,400
TXN-005	↑ Out	Patil Stone Depot	Cheque	₹14,800
TXN-006	↓ In	Patil Builders	Card	₹7,200

TXN-007	↓ In	Ganesh Homes	Cash	₹14,200
TXN-008	↑ Out	National Transport	UPI	₹6,000
TXN-009	↓ In	Sharma Infra	NEFT	₹15,000
TXN-010	↑ Out	Raj Electricals	Cash	₹2,200

9

HR & Payroll Specification

Labour data, check-in logic, wages calculation, and timesheet

9.1 Labour Register (15 Workers)

Name	Role	Daily Wage	Advance	Default Status
Ramesh Kumar	Block Maker	₹550	₹2,000	Present
Suresh Bhosale	Mixer Operator	₹600	₹0	Present
Mahesh Patil	Loader	₹480	₹0	Present
Ganesh Thorat	Block Maker	₹550	₹0	Present
Raju Jadhav	Helper	₹420	₹0	Present
Santosh More	Block Maker	₹550	₹0	Present
Vijay Shinde	Loader	₹480	₹1,500	Present
Anil Waghmare	Helper	₹420	₹0	Present
Dnyaneshwar Kale	Supervisor	₹800	₹0	Present
Pravin Gaikwad	Block Maker	₹550	₹0	Present
Kishor Deshmukh	Driver	₹650	₹0	Present
Rajendra Yadav	Helper	₹420	₹0	Present
Balaji Pawar	Block Maker	₹550	₹0	Absent

Omkar Nikam	Loader	₹480	₹0	Absent
Tushar Jagtap	Helper	₹420	₹0	Absent

9.2 Check-in / Check-out Logic

Current Status	Action	Result	Fields Updated
absent	Tap "Check In"	in	status='in', checkin=now(), checkout="
in	Tap "Check Out"	out	status='out', checkout=now()
out	Tap "Check In"	in	status='in', checkin=now(), checkout="

Live Clock: setInterval(1000) updates #I-time every second when the Labour section is active. Clock stops (clearInterval) when navigating away.

9.3 Wages Calculation Formula

Step	Formula	Notes
Attendance Days	$\Sigma(P + H \times 0.5)$ for the month	Excluding Sundays and Indian holidays
Gross Wages	<code>attendance_days × daily_wage</code>	Rounded to nearest ₹
PF Deduction	<code>gross × 0.12</code>	12% employer Provident Fund contribution
Net Payable	<code>gross – pf_deduction – adv</code>	adv = outstanding advance amount
Status	<code>net > 0 → "Pending" net ≤ 0 → "Paid"</code>	Used for payment-status badge

9.4 Wages Section Tabs

#	Tab Name	Contents
1	Wages Register	Dynamic table: Name, Role, Daily Rate, Days Present, Half Days, Absent, Gross, PF, Advance, Status
2	Pay Wages	Month selector, payment mode, date, UTR reference, per-worker or all; shows payable
3	Payment History	Month-wise history: Labour, Days, OT Hours, OT Amount, Advance Deducted, Net Paid, Status

4	Advance / Deduction	Log advance (amount, reason, repayment plan) + Log deduction (type: absent/PF/dam amount)
---	---------------------	---

10

Multilingual System

9-language support specification and implementation

10.1 Supported Languages

EN

English

Default language

HI

Hindi

हिंदी

MR

Marathi

मराठी

KN

Kannada

ಕನ್ನಡ

TE

Telugu

ತುಳು

10.2 setLang() Implementation Steps

LNG-01

Mark clicked button .active; remove .active from all other lang-btn elements

MUST

LNG-02

Update #page-title text using LANG_LABELS[code][currentPageId]

MUST

LNG-03

Update .brand-name innerHTML — split brand string on '\n' and replace with

MUST

LNG-04

Update .brand-sub text to translated tagline

MUST

LNG-05

Update each .nav-item text node by matching icon class to section key via icon→key lookup map

MUST

LNG-06

Preserve .nav-badge elements after text node replacement

MUST

10.3 Required LANG_LABELS Keys (per language)

Each language object in LANG_LABELS must include all 25 keys:

overview · orders · quote · inventory · production · rawmat · catalogue · customers · pipeline · ledger ·
dispatch · payments · online-orders · labour · wages · timesheet · notifications · calendar · reports ·
map · contact · settings · about · brand · tagline

11

Data Models

In-memory JavaScript data structures for all modules

11.1 Order Data Model

Field	Type	Example
id	String	'#1042'
cust	String	'Rajesh Constructions'
product	String	'Solid 6" Block'
qty	Number	500
amount	String	'₹18,500'
date	String	'Jun 15'
payment	Enum	'Paid' 'Partial' 'Pending' 'Advance'
status	Enum	'Delivered' 'In Transit' 'Pending' 'Cancelled'

11.2 Product Data Model (PRODS)

Field	Type	Notes
name	String	Full product name with dimensions
sku	String	e.g. 'SB-6816'
price	Number	₹ per unit (pre-GST)
icon	String	Tabler icon class e.g. 'ti-box'
stock	Number	Current units in stock
max	Number	Maximum capacity for progress bar %

11.3 Quote Line Item (QI Array)

Field	Type	Notes
name	String	Product name
price	Number	Base price per unit

qty	Number	Editable quantity (min 1)
disc	Number	Discount % (0–30)
sku	String	Used for deduplication on add

Deduplication: If same SKU is added again, qty is incremented on existing line item rather than creating a duplicate row.

11.4 Chart Data (Overview)

Chart	Canvas ID	Data
Revenue Line	c-rev	[6.2, 7.1, 7.8, 8.4, 9.0, 9.8] (Jan–Jun, ₹L)
Sales Donut	c-donut	[48, 32, 20] (Solid/Hollow/Paver %)
Production Bar	c-week	[980, 1100, 1050, 1200, 1320, 890, 600] (Mon–Sun)
Pipeline Donut	c-pipe	[6.2, 4.8, 5.4, 2.0] (Lead/Quote/Neg/PO, ₹L)
Revenue vs Cost	c-margin	Revenue [6.2...9.8] vs Cost [3.9...5.9] (₹L)
Attendance Bar	c-attend	[94,91,96,89,93,88,0,0,0,0,0] (Jan–Dec %)

12

Non-Functional Requirements

Performance, accessibility, security, and maintainability

12.1 Performance

NFR-01

Initial page load under 3 seconds on 4G connection (CDN assets load in parallel)

MUST

NFR-02

Charts lazy-initialize only when their section becomes active (prevents hidden canvas errors)

MUST

NFR-03

Theme toggle destroys all charts then re-inits visible chart after 50ms delay to prevent colour bleed

MUST

NFR-04

Smooth CSS transitions (0.15s ease) on all interactive elements: nav hover, theme, buttons

SHOULD

12.2 Accessibility

NFR-10

All <canvas> elements have role="img" and aria-label describing the chart content

MUST

NFR-11

Form inputs have associated <label> elements; selects have readable option text

MUST

NFR-12

Colour contrast ratios: text on --bg2 $\geq 4.5:1$ in both dark and light modes

SHOULD

NFR-13

Custom scrollbar: 5px width, rounded thumb, matches theme bg

SHOULD

12.3 Security & Data

NFR-20

No API keys, credentials, or sensitive data hardcoded in the HTML file

MUST

NFR-21

All data is in-memory only — no localStorage, no backend, no cookies

MUST

NFR-22

QR code is a deterministic SVG pattern (not a real payment QR) — clearly decorative

MUST

12.4 Indian Business Conventions

NFR-30

All monetary values use ₹ symbol + toLocaleString('en-IN') for Indian number formatting

MUST

NFR-31

Large amounts shown in Lakh notation: ₹9.8L (not ₹9,80,000 or ₹980,000)

MUST

NFR-32

Financial year: April → March. Working week: Mon–Sat. Sunday = rest day (excluded from timesheet)

MUST

NFR-33

GSTIN format: 2-digit state code (27 for Maharashtra) + 13 alphanumeric characters

MUST

NFR-34

PF (Provident Fund) deduction: exactly 12% of gross wages per worker per month

MUST

13

Indian Holidays 2026

Complete HOL object — single source of truth for Calendar, Timesheet, and Attendance

Single Source of Truth: This HOL object drives three modules simultaneously — Calendar (cell highlighting + table), Timesheet (day exclusions), and Attendance chart (working day calculation). Never duplicate or override.

#	Date Key	Holiday Name	Day
1	2026-01-14	Makar Sankranti	Wednesday
2	2026-01-26	Republic Day	Monday
3	2026-03-03	Holi	Tuesday
4	2026-03-27	Good Friday	Friday
5	2026-04-06	Ram Navami	Monday
6	2026-04-14	Dr. Ambedkar Jayanti	Tuesday
7	2026-05-01	Maharashtra Day / Labour Day	Friday
8	2026-05-15	Buddha Purnima	Friday
9	2026-06-17	Eid ul-Adha	Wednesday

10	2026-08-15	Independence Day	Saturday
11	2026-08-26	Janmashtami	Wednesday
12	2026-09-02	Ganesh Chaturthi	Wednesday
13	2026-09-19	Milad-un-Nabi	Saturday
14	2026-10-02	Gandhi Jayanti	Friday
15	2026-10-21	Dussehra / Vijayadashami	Wednesday
16	2026-11-01	Diwali	Sunday
17	2026-11-02	Diwali (Lakshmi Puja)	Monday
18	2026-11-15	Guru Nanak Jayanti	Sunday
19	2026-12-25	Christmas Day	Friday

Deployment Guide

4 options to go live — from instant local preview to Vercel/Netlify/GitHub Pages

Important: Claude AI cannot deploy code or generate live URLs. The AI produces the index.html file; the user deploys it using one of the options below.

Option A — Vercel (Recommended · Free · ~2 minutes)

Step	Action
1	Go to vercel.com → sign in or create free account
2	Click " Add New... → Project "
3	Choose " Deploy without a Git repository "
4	Drag your index.html file onto the upload area
5	Leave all settings default → click " Deploy "
6	Live URL: <code>https://your-project-name.vercel.app</code>

v1.0	Initial dashboard skeleton with core operations view	Overview, Orders, Location, Contact, Alerts
v2.0	Full B2B commerce suite and HR modules	Quote Builder, Inventory, Production, Raw Materials, Customer Catalogue, Labour, Timesheet, Calendar 2026, Reports, Settings
